ABOUT ME

Full Stack Developer with 3+ years of experience building and deploying responsive, user-focused, and scalable web applications. Specialized in **Ruby on Rails** and modern web technologies, with a strong foundation in **PostgreSQL, Docker,** and GitLab. Passionate about learning new technologies quickly, and contributing to collaborative, product-driven teams.

PROFESSIONAL EXPERIENCE

Software Developer

CAES- Hermosillo, Mexico

February 2024— June 2025
- Built and deployed a **semi-automated invoice processing app** that reduced manual entry time by 80%.
- Integrated **PyTesseract OCR** and designed **regex-based parsing** to extract structured data from unstructured PDFs.
- Delivered a performant, maintainable solution that improved operational efficiency.

Full-Stack Developer Ruby

Freelancer – Hermosillo, Mexico

2021 – 2024
- Designed and implemented a **collaborative project management system** using **Ruby on Rails** and **PostgreSQL**.
- Built **RESTful APIs** to enable seamless communication between front-end and back-end systems.
- Deployed and managed projects with **Git, GitLab, and Docker,** ensuring reliability and scalability.
- Delivered features iteratively, applying testing and code reviews to ensure quality.

Back-End Developer

Congreso HELA – Hermosillo, Mexico

2020 – 2022
- Developed **RESTful APIs** for mobile and web applications using **Django REST Framework**.
- Designed and optimized **PostgreSQL databases** for scalability and performance.
- Implemented **authentication/authorization** flows (JWT & OAuth).
- Integrated payment gateways (**MercadoPago, Stripe**) to support real-world business use cases.

EDUCATION

Biomedical Engineer, Specialization in Technological Applications

Instituto Tecnológico de Hermosillo
2018 – 2024

- Specialized in developing software to create innovative solutions, with experience in optimizing tasks with the use of software for various applications, including web-based platforms and digital systems.
